Some say that primary election "is the only way to try our strength."-And sure enough it is. We had good evidence of it at Morgantown, the 22d of March, where a few took the power upon themselves to make laws by which we are to be governed. Now, I wonder if they think that we are all which we are to be governed. Now, I wonder if they think that we are all such fools as to come at every call of convention, caucus and primary. If they do they are as much mistaken as Paddy was when he went to put his finger on the flea. Perhaps there are a few who will attend, and they (with some exceptions) will be office seekers, and their relations. GREENDALE, 1852. Here I am again, Mr. Editor, ready for another little chat. A short time since I introduced myself to your notice, or perhaps you never would have known there was such a chap. I thought I had waited long enough for somebody else to introduce or recommend me, or whatever you please to call it :- for, in almost every paper, I see more or less recommended for something or other, and I wanted to have some say in matters, so I thought I would write a little for the benefit of the public, and if they are not benefitted thereby it will be their own fault and not mine: for, I intend to put down many old thoughts that I does not side to prove the side of the State, is required to appear in the said court within one month after due publication of this Order, and do what is necessary to protect his interests. In the language of Solomon, we might say: "For lo! the winter is past; the rain is over and gone; the flowers appear on the earth; the time of the singing of birds is come; and the voice of the turtle is heard in the land."

I am always glad to see winter departing and spring coming on; for winter, with its "hoary frosts and hollow moanings" brings many sad and hitter reflections to the mind, and sorrow and sadness to many hearts .-Ah! how many shelterless beings have been exposed to its chilling blasts and perished in its icy arms. PAIN

Scrquia, Syphilis, Meteurial complaints, Carrete, Gangrene, Rheumatism, and a vast variety of other disagreeable and dangerous disconse are speedily and perfectly cured by the use of this medicine.

MR. John D. Park—Deer Sir: It is with unuttorable feelings of gratitude that I am able, through the Divine Providence of God, and by the wonder-working agency of that excellent medicine, 'Guysott's Yellow Dock and Sarsaparilla,' to give you a few symptoms of my almost hopeless case.

In the winter of 1850 I was attacked with a severe pain, which was gradually extending the whole right side and leg; at the same time a total prostration of my physical system; also my leg had shrunk to about two-thirds of its common size. I procured the attendance of a buman system; more reversely my disconsideration of the pain exercises its influence throughout every portion of the buman system; and renders their unable to take up and replete the wasted form with sound material. For the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system; no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Jointe, the Head, the Feet, whether it is common size. I procured the attendance of a buman system; most arrey or muscle escapes its influence throughout every portion of the human system;—not a nerve or muscle escapes the prostrating influence.
